## Executive summary

---

For the 2Q 2018 of CFE Fibra E, we highlight **the normal and in-time flow of the collection rights to the Promoted Trust** as well as **the regular reimbursements to *CFE Transmisión* according to the annual budget**. There were no deviations from the planned scenario.

**Also, the first distribution was carried out as planned in a timely manner.** The amount distributed to Series “A” (18) holders was MXN 0.68 per certificate, while Series “B” (18-2) holders received MXN 0.51 per certificate. The first distribution demonstrated the soundness of CFE Fibra E structure and the proper functioning of the subordination towards Series “A” holders.

**Finally, CFE Capital keeps collaborating with CFE and the regulator in the definition of the new transmission tariffs** that will be applied starting 2019.

# CFE Fibra E is the first investment trust in energy and infrastructure specialized in the energy sector in Mexico.

Aside from our initial asset, we did not have other revenue sources for the 2Q 2018.

Collection rights and reimbursements to CFE Transmisión (million MXN)

- On average, **weekly collection rights** from March to June sum up **MXN 1,429 million pesos.**
- As expected, this period includes the first portion of higher revenues due to seasonality.

- On average, **each reimbursement** covers around **MXN 468 million pesos.**
- Cyclicity is driven by intercompany charges and operation and maintenance expenditures.

Note: CFECapital gives the reimbursement instruction to the Trustee, who makes the deposit at INDEVAL, the central securities depositary for the Mexican securities market. The custodian acts as the tax withholding agent.

Source: CFECapital. The distribution corresponded to the period between February 12, 2018 and May 31, 2018. Because it was the initial period, more days were included than in a regular quarter. Thus, the Minimum Quarterly Distribution (MXN 0.575 per CBFE) was multiplied by a factor of 1.19. <sup>1</sup>Certificados Bursátiles Fiduciarios de Inversión en Energía e Infraestructura, CBFES. <sup>2</sup>0.68425=0.4506090736 taxable income and 0.2336409264 capital reimbursement. <sup>3</sup>0.50942 =0.3354770283 taxable income and 0.173944929 capital reimbursement.

The Promoted Trust has received all income derived from the collection rights minus approved reimbursements.

If the revenues of all operation weeks would have been taken into account for the payment of the June 29 distribution, the MQD for both series could have been covered easily.

The amount received to CFE Fibra E would have been MXN 316 million (equivalent to the 6.776103% of the total amount). The missing MQD for the Series “B” was of MXN 50 million. Therefore, pro-rata distributions could have been paid to both series.

June collection payments will be paid on the next distribution due to the 3 week mismatch caused by CENACE payment process.
