

**CFE Capital announces the update of the tariffs for the public service of transmission of electricity in Mexico for 2020, which were approved by the Energy Regulatory Commission base on the current methodology. The average increment approved with respect to the 2019 tariffs was 0.98%. The new tariffs will be valid until the new methodology is approved.**

**Mexico City, Mexico, December 31, 2019.-** CFECAPITAL, S. DE R.L. DE C.V., manager of CFE Fibra E,<sup>3</sup> the first investment trust in energy and infrastructure specialized in the energy sector in Mexico reports the following to the investors:

On December 16 2019, the Government Body of the Energy Regulatory Commission (CRE) celebrated an ordinary session in which the Agreement A/039/2019<sup>4</sup> was approved, in this, it was determined to continue the extension of the validity of the initial tariff period for the public service of transmission of electricity. The new tariffs approved will be valid from January 1 to December 31, 2019 or until the new tariff methodology is approved, in which case the begging of the new tariff period must be defined. In the following days *CFE Transmisión* will publish the new tariffs in the Official Journal of the Federation.

It is important to mention that the *Comisión Federal de Electricidad* (CFE) is leading a multidisciplinary team that participates in the working tables with the CRE for the determination of the new tariff methodology for the public service of transmission of electricity in Mexico.

CFE Capital will publish a note on its website explaining the assumptions made by the CRE for this change, as well as the final figures for each rate bracket.
