Mexico City, Mexico, September 19th, 2023.- CFE Capital, S. de R.L. de C.V., in its capacity as Administrator of CFE FIBRA E, the first energy and infrastructure investment trust specialized in the energy sector in Mexico, informs its investing public of the following:

The distribution of the Third Quarter of 2023 (3Q2023) is related to the operation of the transmission of electrical energy in Mexico in the months of June, July and August 2023, therefore it considers income from 13 weeks of collection rights and expenses for 14 weeks of refunds.

It is important to highlight that, given the seasonality of the sector, during this period the maximum demand for electrical energy is recorded and, this year, in addition, the highest energy demand in the history of Mexico was registered (June 20th, 2023), which represented 9% more than the maximum demand recorded in 2022.
