

**CFE Capital announces the payment of the quarterly distribution of CFE FIBRA E, corresponding to the second quarter of 2025.**

**Mexico City, Mexico, June 19, 2025.-** CFE Capital, in its capacity as Administrator of CFE FIBRA E, the only financial vehicle with access to the transmission sector in Mexico, informs its investors of the following:

As a result of its operating and financial performance, the total distribution for the second quarter of 2025 amounts to \$824.8 million pesos, which will be delivered to certificate holders on June 30<sup>th</sup>, 2025, in strict compliance with the current Distribution Policy.

In this regard, Series A Holders will receive the Minimum Quarterly Distribution (MQD) corresponding to the second quarter of 2025, together with the remaining portion from the previous quarter. Likewise, Series B Holders will receive full MQD for this period, and a partial distribution of the remainder corresponding to the previous quarter will also be made.

These results are explained by the increase in transmitted energy volumes, the evolution of the transmission service tariff, and the boost to investment in the National Transmission Network, which strengthens the electrical system's infrastructure, ensuring higher quality and reliability of service, and consolidating a sustainable long-term revenue base.

CFE Capital reaffirms its commitment to responsible management and robust and transparent governance. In addition, it will continue to constantly analyze strategic opportunities that add value to CFE FIBRA E and its Holders.
