

**CFECapital reports on the determination of regulated tariffs for the public electricity transmission service in Mexico applicable from January 1 to December 31, 2026.**

Mexico City, January 30, 2026.– CFECapital, S. de R.L. de C.V., in its capacity as Administrator of CFE Fibra E, the only vehicle with access to the National Transmission Grid, hereby informs that:

On January 28, 2026, in an ordinary session, the Technical Committee of the National Energy Commission (CNE) issued Resolution CT/2.SO/8-2026, which sets forth the determination and notification of regulated tariffs for the public electricity transmission service applicable as of January 1, 2026.

<b>Voltage Level</b>	<b>Generators<sup>1</sup></b> <i>Generators</i>	<b>Consumers<sup>2</sup></b> <i>Load Service Entities</i>
Voltage $\geq$ 220 kV	0.0607	0.0791
Voltage $<$ 220 kV	0.1110	0.1801

Notes: Pesos / kWh. The above tariffs correspond to regulated unit values expressed in pesos per kilowatt-hour (kWh) and do not represent net income of the trust, nor do they consider operational adjustments, technical losses, regulatory incentives, or other applicable items in accordance with current regulation.

<sup>1</sup> Refers to the holder of one or more permits to generate electricity at Power Plants, or the holder of a Market Participant agreement that represents such plants in the Wholesale Electricity Market, or, with the authorization of the Commission, Power Plants located abroad.

<sup>2</sup> Refers to facilities and equipment that, at a given site, allow a Final User to receive the Electric Supply. Load Centers shall be determined at the point of measurement of the supplied energy.
